

## Professionalism in power engineering

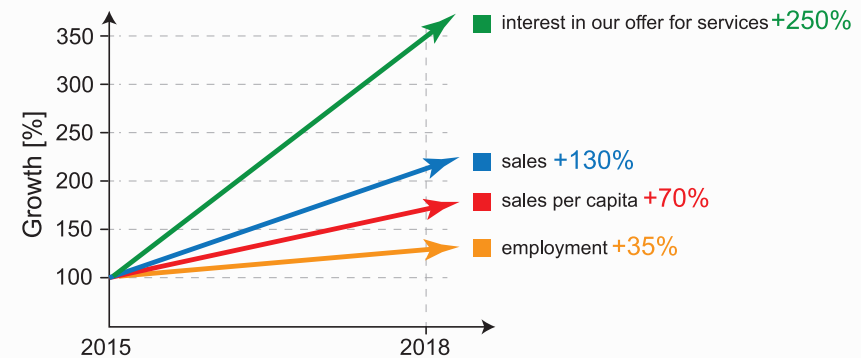

### Termall fields of services:

- coordination and supervision of structures,
- start-ups of power industry installations,
- operation,
- technologies,
- physical and chemical analysis,
- exhaust gas emission measurements,
- optimization of installations,
- consulting.

### Supplementary information:

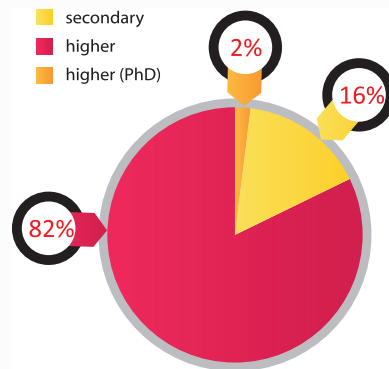

- High quality of services, confirmed with the certificate of the Integrated Management System, compliant with PN-EN ISO 9001:2015-10, PN-EN ISO 14001:2015-09, PN-N-18001:2004 standards.
- The company established the Power Industry Testing Laboratory, which has the AB 1728 accreditation certificate, compliant with PN-EN ISO/IEC 17025:2018-02.

### Dynamics of Termall's development (2015-2018)

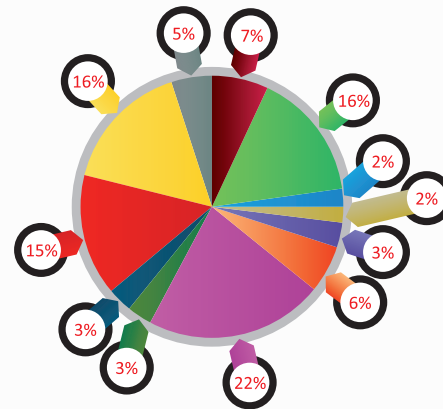

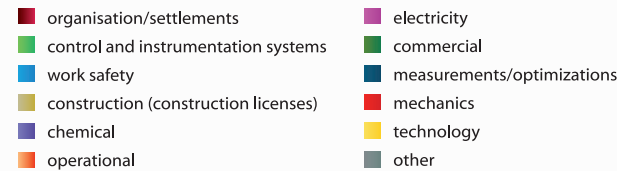

- Employees taking part in projects hold qualification certificates for operation of equipment, installations and networks:
  - Supervision / Group 1, Group 2, Group 3,
  - Operation / Group 1, Group 2, Group 3.
- We also have employees with construction licenses.

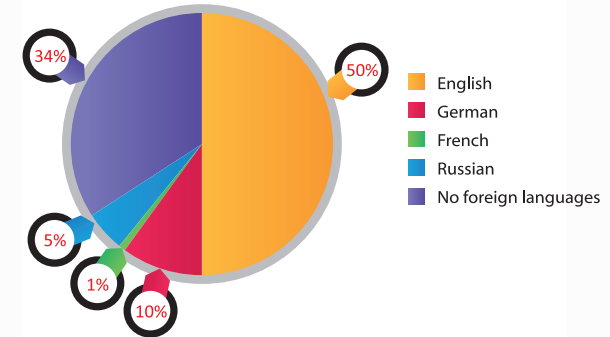

## Staff characteristics

- personnel's education

- by specialty

- by knowledge of languages
